

Akhilesh Mittal

Dear Mr. Jain,

Hearty congratulations for your new enterprise, “KRISHAANG ABHITAASH TECHNOLOGY.”

As you take your first baby steps towards becoming an IT entrepreneur, always remember that the ability to make fancy software and expensive solutions does not always lead to success. It is the ability to adapt them to become useful in the lives of ordinary people is what leads to success. Your area of work as to provide management, development training and education in the field of IT and also to provide general consultancy services for employment are very interesting areas where so many works needs to be done to take the Nation to next level and also for benefited to large numbers of aspirants who are looking for good opportunity to present themselves in the field of Information Technology.

As a Dy. Manager IT, State Bank of India, Administrative Office, Jaipur you were providing valuable suggestions & support towards integration of State Bank Payment Gateway with Government departments taken the State towards use of e-payment mechanism instead of old traditional system. Your ability as an excellent facilitator always remind us your technical and managerial roles where, skilled professional always has ability to bridge the gap between the technical and the functional aspects.

In the last, I hope your ability will take forward the Development process at National and State level in true sense.

For enterprising Business, every obstacle presents, is an opportunity always. May your new business get you lots of fortune, name and fame.

Good luck for this startup.
